Information for all courses

- You will receive a manual, which includes class information, processes and further reading.
- Certain, essential processes are done as phone appointments, i.e. make an appointment, by phone or email, and at the scheduled time phone in and you will be assisted with the process.
- In order to facilitate phone appointments, we require a full-length photo of yourself, with no others in the photo, preferably wearing light coloured clothing and taken recently. This assists us in tracking your energy.
- There is required reading throughout the course. This may also include additional reading if suggested by your instructor. Some books may be able to be sourced through your local library but we cannot guarantee this.
- It is a policy that course fees are not refunded once training has commenced. However, for the Practitioner Training, in the unlikely event a student fails to meet the proficiency standards necessary for graduation they may repeat the course at no charge.
- Each course entitles you to unlimited telephone appointments during the time of your course which is estimated to be 1 ½ times the length of the average time taken for each unit.
- Please take advantage of the features throughout the course. The more you allow us to support you the greater will be the benefit you receive from your training.

Additional Information for Life Skills and Psychic Development Training

- 30% of the course fees from the Life Skills Training and Psychic Development Training are credited against the cost of the Practitioner Training.

Course Information

Additional Information for the Practitioner Training Course **only**

- While the Life Skills and Psychic Development Courses can be done 100% via correspondence the Practitioner Training can only be done 90% by correspondence. There are some steps in conscious awareness which cannot be done at a distance. The leap in consciousness and energy is such that it would be almost impossible without hands-on facilitation. This means you will need to make a trip to meet personally with the Master Practitioner who is your instructor. Please contact us for further details.
- The minimum number of required trips is two:
 - a) For the end of Unit 2 and the beginning of Unit 3. This has been done this way to reduce the number of trips necessary. Personal instruction on this trip will be of at least 4 days duration.
 - b) At the completion of the course. This will need to be at least 2 days. One day for review and assessment, which is necessary to qualify for graduation. The second day is for graduation.
- Further trips may be necessary if you are experiencing difficulties.
- From Unit 2 there is required practise. You will also need to send in reports on your practise sessions for assessment. It is a requirement for your own safety and the safety of your practise subject that you send us a similar photo of them *before* you begin practising on them. Some people may have serious conditions which should only be handled by a fully trained practitioner. This will also allow us to more accurately assess your sessions.
- Please do this training **ONLY IF** you feel it is appropriate for you to do so. During this course your awareness will develop beyond anything you can currently imagine. You will not finish it as the same person who began it. This is an amazing journey in consciousness. If you are ready for it, then I would encourage you to begin it now. But if you are not ready, then I would encourage you to wait until you are ready. Growth in consciousness or awareness is not something that can be forced.
