

Testimonial For Catherine Wilkins  
Founder of Fractology Practitioner Training Correspondence Course

I have been doing the Fractology Practitioner Training by correspondence and I am extremely pleased and impressed with the results I have achieved thus far, which has far exceeded my initial expectations. I have been able to work at an appropriate pace and continue working full-time. I am grateful for the opportunity to be able to learn the course by correspondence with means I have the flexibility to be in which ever country, or city I choose whilst studying this course!

For many years I have been looking for methods to improve how I approach difficulties in my life, improve my self image and at the same time enhance my existing skills to enable me to be an effective healing practitioner – this course has achieved all those things and I've only just scratched the surface! I look forward to the continuing work and completion at the end of the course!

This correspondence course has been a wonderful investment in myself and developing my career aspirations as a practitioner.

I find the content of the course well set out, professionally presented and written in a way that is clear, concise and encouraging of the student. I like the colourful presentation as it helps with my comprehension of the material. I find that each module builds upon the next. There is a good balance of practical and theory work within the course.

Catherine Wilkins has done a superb job in terms of putting together the content and material for this course. I am definitely getting excellent value of money. The tools contained within the course give a solid and firm foundation for each Fractology Practitioner, I have not come across any other courses that offer such comprehensive training and which fully supports the student. Thank goodness Catherine has brought this course into being!

I have felt supported right throughout the course, and find that my enquiries - be it by telephone, letter or email has been responded to in a prompt and effective manner.

The processes in the course also permit the student to approach the lessons not only in a thorough manner, but also in a way that is enjoyable and fun, which I believe is an important element in anything. On a personal note, my friends are very supportive of the work that I am learning through this course and they are noticing that since doing the course I have become more positive with my outlook on life and that I have gained strength and focus on what I choose to do in my daily life.

I look forward to continuing with the studies and achieving the standards that are laid out in this Fractology Practitioner Course.

Thank you once again for this unique opportunity!
